🔥 Into Crypto & DeFi

🏃 Avid learner

Profile

Goal-oriented App & Blockchain Developer, looking to enhance my professional experience specialising in tech, management & finance. Armed with a deep sense of responsibility and possessing very high levels of enthusiasm to give my 110% for any endeavour.

Experience

● **Founder, CTO | Beam Community, Inc.** full-time | March 2020 - present

Built entire product from start to finish, used tools like React, Node, GraphQL, MongoDB, Websocket, Twilio, Stripe, AWS EC2, AWS SES, Git, Cloudinary on production.

As a founder, not just managed technical aspects of the company, but also UI/UX, Growth, and Product Management.

<https://itsbeam.com>

● **Web 3.0 Developer | Monument Labs, Inc.** part-time | Dec 2021 - present

Powered by Ethereum, [monument.app](#) is a metaverse that funds and enables human potential through tokenized storytelling.

● **JavaScript Developer | Koji** contract-based | July 2019 - Feb 2020

Worked on useful open source projects built in TypeScript and React. Made fun games in React, p5.js that more than a thousand played!

● **Maintainer | bulk-mail-cli** side-project

Created the hassle-free email marketing and campaigning tool for geeks who use the command line interface. It is built using Node.js and TypeScript. Open Source.
